

## **US LEC Referral Agent Program**

**The US LEC Referral Agent Program:** This is a bonus incentive program developed to facilitate lead generation. Referral Agents in our program are compensated up to \$750 for each T1 access circuit sold to a qualified account.

**A Simple Program with Lots of Rewards:** Join a team that continues to exceed expectations, with customer satisfaction and retention rates unsurpassed in the industry. By forwarding your qualified lead information to US LEC, you can supplement your existing revenue stream with referral fees for every successful sale. Your qualified lead referral starts the process.

**Save Time while Making Money:** The US LEC referral program takes very little time to manage. Through your on-going relationship with a local US LEC Account Executive, you simply provide qualified opportunities and the US LEC Account Executive will handle the sale and implementation of the order. Upon the customer's payment of their first invoice, you will receive up to \$750 commission for each T1 access circuit sold. For opportunities that require less than a full T1, US LEC offers referral compensation based on the customer's service requirements.

**No Sales Volume Commitment:** Because the US LEC Referral Agent program does not require a volume commitment, you're free to concentrate on your business. Refer US LEC to your customers, and we'll do the rest.

**Opportunities Abound:** US LEC, a super-regional carrier throughout the Southeast and Mid-Atlantic region, offers a host of product solutions to meet your customers' needs. Available service applications include:

- Local Service Access Circuits
- Long Distance Applications
- Data/ Frame Relay & ATM
- Data/ US LECnet Dedicated Internet

For more information on the US LEC Agent Programs, contact your local US LEC sales office or Jim Safran Agent Channel Manager, at 704.319.6244 / [jсаfran@uslec.com](mailto:jсаfran@uslec.com)
